

## **Weeki Wachee Kayaking**

### **Private Launch/Landing on the Weeki Wachee River**

The Nature Trail leads to our private launch/landing located on one of the most pristine and natural areas of the Weeki Wachee River. On many days manatee can be seen gathering to eat underwater vegetation.

Manatee are seen almost daily directly at our launch landing and provide a very special experience for our guests as they enter or exit the Weeki Wachee River. The area is a perfect natural navigational channel for the manatee as they go up or down the river. Manatee cows and calves can be seen very easily as they pass the area. The area is just a little up river from the fabled Hospital Hole where fish come to recuperate.
