

Weeki Wachee Kayaking

Rules on the River

Alcohol is not permitted on the Weeki Wachee River. Glass bottles are also not permitted. Pets are not permitted unless you launch a private boat from a residence or another public area that allows dogs. Service animals are permitted on the river. You are not allowed to exit your boat in the first mile of the river located inside of the state park. All persons on a kayak or canoe must have a USCG approved flotation device with a whistle. Both are provided to you by Weeki Wachee Kayaking. You are not permitted to touch, feed, molest or ride Manatee. This causes stress, endangers the manatee and can cause permanent damage or even death. Please do not endanger the manatee so we can all enjoy them for years to come.
